

With Pittcon, MSACL, and many other excellent events already behind us, be sure not to miss out on these upcoming conferences!

Curious where you will find Phenomenex at these conferences? See our Events Page for all the information such as booth number, speaker times and topics, technical posters, and fun give-a-way opportunities! We can't wait to meet you!

TIDES: Oligonucleotide and Peptide Therapeutics Meeting

When: April 30-May 3, 2017

Where: Manchester Grand Hyatt, San Diego, CA

What: Accelerate Oligonucleotide and Peptide Products

TIDES is the leading event for the analytical study of oligonucleotide and peptide therapeutics. For an over-view of cutting edge technology in the industry, TIDES brings in over 100 speakers, 70 plus vendors, and the opportunity to network within the communities of research, clinical, and suppliers.

AOCS: American Oil Chemists Society

When: April 30-May 3, 2017

Where: Rosen Shingle Creek, Orlando, Florida

What: Fats, Oils, and Related Material- Mass Spectrometry and Analytical Instrumentation

The AOCS's annual meeting is a premier international science and business forum on fats, oils, surfactants, lipids and related materials and is the largest event of its kind. Would you like to know how active industry trends are affecting the analysis of fats and oils? Then the AOCS meeting in Orlando, Florida is perfect for you. With over 1,600 professionals from 45

countries you'll have the chance to network, learn and share.

Focus: Association for Clinical Biochemistry & Laboratory Medicine

When: May 3-5, 2017

Where: Leeds, UK

What: Clinical Toxicology

Focus 2017 will explore techniques on producing better patient-oriented services and work being done at the interface between research and service delivery. The two-day event will provide opportunities to meet, discuss, and exchange ideas with colleagues.

LAPRW: Latin-American Pesticide Residue Workshop

When: May 14-17, 2017

Where: San Jose, Costa Rica

What: Food and Environment

LAPRW is the ultimate source for information about advancements in pesticide residue regulation in food and the environment. The main goal of the event is to continue with the successful series of Latin American workshops that began in 2007 on the topic of pesticide residue. This conference provides an ideal way to keep scientists and regulators informed about methodologies of analysis, instrumentation, risk analysis, monitoring, control, and quality assurance of laboratories.

ASMS: American Society of Mass Spectrometry

When: June 4-8, 2017

Where: Indianapolis, Indiana

What: Mass Spectrometry and Allied Topics

Home of the Brickyard Race Way, ASMS will be covering topics that dive deep into the advancement of techniques and instrumentation of mass spectrometry as well as fundamental research in chemistry, geology, forensic science, biological science, and physics.

APS: American Peptide Symposium

When: June 17-22, 2017

Where: Whistler, BC, Canada

What: Peptides and Biopharma

Taking place in beautiful Whistler, British Columbia for the 25th APS, this year's theme "New Heights in Peptide Research," covers a broad range of topics connecting chemical, materials, biological, pharmaceutical, and medical science. Enjoy the view!

HPLC: International Symposium on High Performance Liquid Phase Separations and Related Techniques

When: June 18-22, 2017

Where: Prague, Czech Republic

What: Innovations in HPLC, UHPLC, LC-MS and other techniques

HPLC symposium is one of the largest meetings in the world dedicated to liquid phase separation science. This international meeting series is multi-disciplinary in nature and brings together many of the world's leading authorities to address the practical and economic issues and challenges related to all aspects of liquid phase separation science techniques.

PREP: International Symposium on Preparative and Process Chromatography

When: July 16-19, 2017

Where: The Loews Hotel, Philadelphia, PA

What: Preparative Chromatography, Ion Exchange, Adsorption Processes, and Related Separation Techniques

Join scientist and media manufacturers from around the world who will focus on presenting some of the most cutting-edge areas of preparative and process chromatography. Also see how the latest products and technologies are driving the pace of innovation in scientific research. Find current solutions to practical chromatographic separations and optimize

chromatography processes for the best economic production. Get close-up views of the latest products and technologies that are driving the pace of innovation in prep chromatography.

(Source: NACRW Website)

NACRW: North American Chemical Residue Workshop

When: July 23-26, 2017

Where: Naples, FL

What: Pesticide Residues in Food and Environmental Samples, Mass Spectrometry, and Sample Prep

We're seeing a pattern in beautiful locations, as NACRW holds its annual workshop in Naples, Florida. The workshop will focus on the mass spectrometry, sample prep and advanced detection techniques geared towards food and environment. If you're involved in any way, shape, or form in the analysis of pesticide residues or environmental contaminants, this workshop will be one for the books.

SOFT-TIAFT: Joint Annual Meeting of Society of Forensic Toxicologists and The International Association of Forensic Toxicologists

When: September 9-14, 2017

Where: Boca Raton, Florida

What: Analytical Toxicology

Science, sunshine, and social networking! Can't go wrong with this annual meeting held on

the beautiful beaches of Boca Raton, where practicing forensic toxicologists and those interested in the discipline come together for the purpose of promoting and developing forensic toxicology. It is a week of ideas and information being exchanged among toxicology professionals in a friendly, relaxed atmosphere. A definite can't miss.
