

You don't need to tell us that our customers are superheroes! We already know that they take control of lab situations and proceed to kick major *you know what*. But what makes a tremendous superhero even better? A delightful combo that is unstoppable—a superhero (you!) and their sidekick (your new [LC, GC, or autosampler vials!](#)).

Together they save the day, defeat evil particulates, immortalize* column lifetimes (*okay maybe not immortalized, but definitely extend column lifetimes) and create less system maintenance downstream. The best superheroes and sidekicks go together like peanut butter and jelly, mac and cheese, salt and pepper...well, you get it, they are all great teams! But becoming the best involves selecting the right sidekick, which is why we decided to audition for the part of our trusty sidekick!
